President Dodge thanked all for their patience and announced they would start the meeting by addressing the issue from earlier in the day regarding an article that was posted online about a former student’s Facebook post. Superintendent Lavine indicated that a lot of communication had been happening since the article was first posted and since she had been made aware of it. She then gave a timeline of events leading to the article, which included her first becoming aware of the Facebook post and her call to law enforcement on Saturday, October 3rd. The following Monday, Ms. Lavine was notified by law enforcement that their investigation concluded that no further action on the part of the District was in order. No mention was made of a continuing investigation or possible arrest. That was her last official notification regarding the matter. Two and half months later she was notified that an arrest had been made. She indicated that the headline of the article was misleading and the bathroom in which the former student photographed himself is not on LaFayette school grounds, contrary to what was published.

Public discussion took place regarding how the situation was handled, including questions regarding safety in the District. Some members of the public questioned why they were not informed when the

post was made, and asked if staff members had been threatened in the posting. President Dodge reiterated the steps that had been taken once the posting was shared with Superintendent Lavine. No reference in the post was made to District students or staff. Public questions and comments continued with concerns and questions directed at the Superintendent and the Board of Education. At 6:20pm, President Dodge requested a motion to end the meeting. A motion was made by Trustee Scofield, and seconded by Trustee Whitney. President Dodge left the meeting.

Vice President Johnson addressed the public by saying that he would like to end the public discussion for this meeting, but that the Board would develop an action plan and prepare additional time for the public to speak at their next scheduled meeting on January 14th, 2016. Discussion turned to the topic of bullying at the Jr/Sr High School. Superintendent Lavine indicated that Principal Chupaila addresses any incidents of bullying or other violations of the code of conduct when he is made aware of them. Other public concerns were expressed regarding past bullying incidents in the District allegedly being ignored by Administration. A Jr/Sr High School teacher expressed his concern over new students at the High School who had previous issues with a male teacher and his concern that the staff was not made aware. A second teacher agreed, indicated that he and other male teachers should have been made aware of these incoming students.

At 6:39pm, Vice President Johnson announced the meeting was still in open session, as a vote had not been made to conclude the meeting. He also stated that he wanted to encourage the members of the public to come to Board meetings to express concerns or ask questions.

Discussion continued regarding hall monitors and cafeteria monitors. Several students shared that they had been bullied and did not agree with how it was handled. Further discussion took place about supervision and student management. Someone suggest that the District needs to bring the community together and that students need to be decent to each other. Someone else shared a concern about students being afraid to report bullying due to possible retaliation and disagreement with how bullying has been handled.

A staff member asked the Board if the subject of online courses would be discussed at this meeting because that is why she was there. Vice President Johnson responded that it was unlikely other agenda items would be discussed and that they would be rescheduled. The staff member stated she had concerns regarding online classes being offered.

Someone suggested a system which lets teachers between buildings know of issues among students, especially students leaving 6th grade and entering 7th. A high school teacher responded that there is no such system in place and that it has been discouraged in the past for teachers to discuss incoming 7th grade students. (Note: Subsequent to this meeting, Principal Blossey shared that she, the 6th and 7th grade teachers met at the beginning of the school year to share information with the 7th grade team, including the special area teachers, about incoming 7th graders). Some members of the public returned to the topic of the Facebook posting and asked more questions and shared strong opinions. A community member asked that since an investigation was going on, when is a legal time that it can be discussed when it involves a minor. Superintendent Lavine reiterated that she was unaware of any investigation, but since an arrest has since been made, the case is public.

A teacher stated that she was told about this matter by a sheriff in October and questioned why the staff was not informed by the District. Superintendent Lavine reiterated that she was not informed of any investigation. Trustee Scofield stated that law enforcement was told immediately about the posting, which followed the proper process to inform law enforcement so they can determine whether or not there is a threat. Discussion then took place about security in the buildings. Some community

members reported that the sports door at the High School is not locked after dismissal and after 2:30pm the doors at Grimshaw are open. Trustee Scofield indicated that this would be explored. Trustee Scofield left the meeting at 7:13pm.

Two people in the audience asked if a similar situation were to happen again, would it be handled differently. Superintendent Lavine indicated that based on feedback from the community, it would be handled differently. At 7:22pm, Vice President Johnson stated that public communication would cease, and the Board will move on to the agenda for the meeting.
