

Directions for MyGradeBook.com

Log onto www.mygradebook.com (there will be a link to the web page on the LaFayette High School main page).

To the right of the MyGradeBook web page will be a listing for logging in, click on the one for parents and students.

Click on the link for the 'Single Class Login'

This will bring you to a screen to enter the 'Classword' and the 'Password'. This will be different per class, as they are set up by the teacher in advance.

Classword: a unique word or phrase that is created by the teacher to access that subject's assignments and grades.

Password: each student will have a specific password given to them by their teachers. It is only necessary to remember one password to access every subject. Important note: the classword and password must be for the same subject/teacher.

You now will have access to various points of information for that class and teacher. Information that should be accessible is:

- ~ Course-Section
- ~ Class Description
- ~ Class Policies
- ~ Class Announcements
- ~ Grading Scale

Any questions or problems concerning access to this should be first discussed with the teacher. This will verify that your user classword and password are correct.

As the school year gets underway, more information will be forwarded to you regarding MyGradeBook.
