INDEPENDENT AUDITOR'S REPORT

September 26, 2018

To the Board of Education of LaFayette Central School District:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the LaFayette Central School District (District) as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

432 North Franklin Street, Suite 60 Syracuse, New York 13204 p (315) 476-4004 f (315) 475-1513

www.bonadio.com

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and aggregate remaining fund information of the District as of June 30, 2018, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

(Continued)

INDEPENDENT AUDITOR'S REPORT (Continued)

Emphasis of Matter – Change in Accounting Principle

As described in Notes 2 and 12 to the financial statements, the District adopted new accounting guidance, GASB Statement No. 75, Accounting and Financial reporting for Postemployment benefits other than Pensions – an amendment of GASB 45. As a result, a net adjustment was made to decrease net position at July 1, 2017 by \$23,478,404. Our opinions are not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, Schedule of Revenue, Expenditures and Changes in Fund Balance - Budget and Actual - General Fund, Schedule of Changes in Total OPEB Liability and Related Ratios, Schedule of Proportionate Share of Net Pension Liability (Asset) and Schedule of Contributions - Pension Plans be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The Combining Balance Sheet and Combining Statement of Revenue, Expenditures, and Changes in Fund Balance - Non-major Governmental Funds; the Schedule of Change from Original Budget to Revised Budget and the Real Property Tax Limit - General Fund; Schedule of Project Expenditures - Capital Projects Fund; and the Schedule of Net Investment in Capital Assets are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Combining Balance Sheet and Combining Statement of Revenue, Expenditures, and Changes in Fund Balance are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Combining Balance Sheet and Combining Statement of Revenue, Expenditures, and Changes in Fund Balance are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

INDEPENDENT AUDITOR'S REPORT (Continued)

Other Matters (Continued)

Other Information (Continued)

The Schedule of Change from Original Budget to Revised Budget and the Real Property Tax Limit - General Fund; Schedule of Project Expenditures - Capital Projects Fund; and the Schedule of Net Investment in Capital Assets have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated September 26, 2018, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED) JUNE 30, 2018

The following is a discussion and analysis of the LaFayette Central School District's (the District) financial performance for the fiscal year ended June 30, 2018. The section is a summary of the District's financial activities based on currently known facts, decisions, or conditions. It is also based on both the government-wide and fund-based financial statements. The results of the current year are discussed in comparison with the prior year, with an emphasis placed on the current year. This section is only an introduction and should be read in conjunction with the District's financial statements, which immediately follow this section.

FINANCIAL HIGHLIGHTS

- The School District's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of Standards set by the Governmental Accounting Standards Board (GASB). The School District's OPEB liability at June 30, 2017 (as restated) totaled \$31,559,225. The changes during the fiscal year included service cost of \$799,421, interest cost of \$1,115,531, changes in assumptions and other inputs of \$(1,577,961) and benefit payments of \$(798,310). The accumulated OPEB liabilities at June 30, 2018 totaled \$31,097,906.
- The Statement of Net Position reflects a total net position (deficit) of \$(6,813,881) at June 30, 2018. This compares to the originally stated prior year net position (deficit) of \$15,919,469. After implementation of GASB 75 related to Other Postemployment Benefit (OPEB), net position as of July 1, 2017 was restated to \$(7,558,935).
- Capital assets, net of accumulated depreciation during 2017-2018 amounted to approximately \$30 million.
- General revenue, which includes State aid, and property taxes, accounted for approximately \$20.6 million of all revenue. Program specific revenue in the form of Charges for Services, Operating Grants and Contributions and Capital Grants and Contributions accounted for \$4,551,504 of total revenue.
- Total expenses for in the government-wide financial statements totaled \$24,452,532 and \$23,089,885 in 2018 and 2017, respectively.
- As of the close of the fiscal year, The District's governmental funds reported combined fund balances (deficit) of \$5,934,622 and \$5,342,934 in 2018 and 2017, respectively, an increase of \$591,688 from 2017 to 2018.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts: Management's Discussion and Analysis (this section), the basic financial statements, and required supplementary information. The basic financial statements include two kinds of statements that present different views of the District:

- The first two statements are District-wide financial statements that provide both short-term and long-term information about the District's overall financial status.
- The remaining statements are Governmental fund financial statements that focus on individual activities of the District, reporting the operation in more detail than the District-wide statements.
 - The Governmental fund statements tell how basic services, such as instruction and support functions, were financed in the short-term, as well as what remains for future spending.
 - Fiduciary fund statements provide information about financial relationships in which the
 District acts solely as a trustee or agent for the benefit of others, including the employees of
 the District.

The financial statements also include notes that provide additional information about the financial statements and the balances reported. The statements are followed by a section of required supplementary information that further explains and supports the financial statements with a comparison to the District's budget for the year. Table A-1 shows how the various parts of this annual report are arranged and related to one another.

Table A-1 Organization of the District's Annual Financial Report

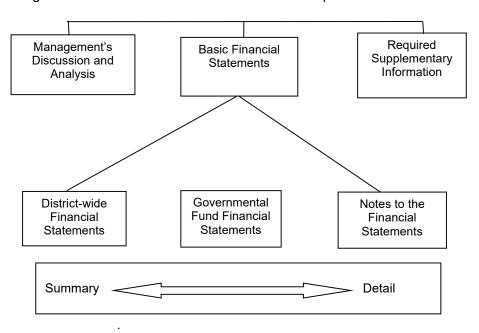

Table A-2 summarizes the major features of the District's financial statements, including the portion of the District's activities that they cover and the types of information that they contain. The remainder of this overview section highlights the structure and contents of each statement.

Table A-2 Major Features of the District-Wide and Fund Financial Statements

		Fund Financial Statements					
	District-Wide	Governmental Funds	Fiduciary Funds				
Scope	Entire District (except fiduciary funds)	The day-to-day operating activities of the District, such as instruction and special education	Instances in which the District administers resources on behalf of someone else, such as scholarship programs and student activities monies				
Required financial statements	Statement of net position Statement of activities	Balance sheet Statement of revenue, expenditures, and changes in fund balance	Statement of fiduciary net position Statement of changes in fiduciary net position				
Accounting basis and measurement focus	Accrual accounting and economic resources focus	Modified accrual accounting and current financial focus	Accrual accounting and economic resources focus				
Type of asset/deferred inflows-outflows of resources/liability information	All assets/deferred outflows and liabilities/deferred inflows, both financial and capital, short- term and long-term	Current assets and liabilities that come due during the year or soon after; no capital assets or long-term liabilities included	All assets/deferred outflows and liabilities/deferred inflows, both short-term and long-term; funds do not currently contain capital assets, although they can				
Type of inflow/outflow information	All revenue and expenses during the year, regardless of when cash is received or paid	Revenue for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and the related liability is due and payable	All additions and deductions during the year, regardless of when cash is received or paid				

District-Wide Statements

The District-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the District's assets and liabilities. All of the current year's revenue and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two District-wide statements report the District's net position and how it has changed. Net position, the difference between the District's assets and liabilities, is one way to measure the District's financial health or position.

- Over time, increases or decreases in the District's net position are an indicator of whether its financial position is improving or deteriorating, respectively.
- For assessment of the overall health of the District, additional nonfinancial factors, such as changes in the property tax base and the condition of buildings and other facilities, should be considered.

District-Wide Statements (Continued)

Net position of the governmental activities differs from the governmental fund balances because governmental fund level statements only report transactions using or providing current financial resources. Also, capital assets are reported as expenditures when financial resources (dollars) are expended to purchase or build such assets. Likewise, the financial resources that may have been borrowed are considered revenue when received. Principal and interest payments are considered expenditures when paid. Depreciation is not calculated. Capital assets and long-term debt are accounted for in account groups and do not affect the fund balances.

District-wide statements use an economic resources measurement focus and full accrual basis of accounting that involves the following steps to prepare the statement of net position:

- Capitalize current outlays for capital assets.
- Report long-term debt as a liability.
- Depreciate capital assets and allocate the depreciation to the proper function.
- Calculate revenue and expenditures using the economic resources measurement focus and the full accrual basis of accounting.
- Allocate net position balances as follows:
 - Net investment in capital assets.
 - Restricted net position includes resources with constraints placed on use by external sources or imposed by law.
 - o Unrestricted net position is net position that does not meet any of the above restrictions.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds, not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs. The funds have been established by the State of New York.

The District has two kinds of funds:

- Governmental Funds: Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets can readily be converted to cash flow in and out of the District and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the District-wide statements, additional information at the bottom of the governmental fund statements explain the relationship (or differences) between them. The governmental fund statements focus primarily on current financial resources and often have a budgetary orientation. Governmental funds include the General fund, Special Aid fund, School Lunch fund, Debt Service fund and the Capital Projects fund. Required financial statements are the balance sheet and the statement of revenue, expenditures, and changes in fund balance.
- Fiduciary Funds: The District is the trustee, or fiduciary, for assets that belong to others, such as the scholarship fund and the student activities funds. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. The District excludes these activities from the District-wide financial statements because it cannot use these assets to finance its operations. Fiduciary fund reporting focuses on net position and changes in net position.

Financial Analysis of the District as a Whole

Our analysis below focuses on the net position (Table A-3) and the change in net position (Table A-4) of the District-wide governmental activities.

Table A-3 Condensed Statements of Net Position - Governmental Activities (in thousands)

	Fiscal Year <u>2018</u>	Fiscal Year <u>2017</u> <u>Restated</u>	Percent <u>Change</u>
Current assets Non-current assets Total assets	\$ 14,270	\$ 11,024	29.44%
	30,384	30,194	<u>0.63</u> %
	44,654	41,218	8.34%
Deferred outflow	6,367	6,225	<u>2.29</u> %
Current liabilities	8,380	5,709	46.76%
Long-term liabilities	46,058	48,988	- <u>5.98</u> %
Total liabilities	54,438	54,697	-0.47%
Deferred inflow	3,397	305	1014.70%
Net position: Net investment in capital assets Restricted Unrestricted (Deficit) Total net position	15,766	14,574	8.18%
	5,025	2,931	71.41%
	(27,605)	(25,064)	<u>10.14</u> %
	\$ (6,814)	\$ (7,559)	- <u>9.86</u> %

In Table A-3, total assets at June 30, 2018 were approximately \$3.4 million lower than at June 30, 2017. Non-current assets increased approximately \$0.1 million, due to the change in net pension asset of \$0.7 million.

Deferred outflows/inflows mostly account for the GASB No. 68, recording of pensions and GASB 75, other post employment benefits.

Total liabilities decreased by approximately \$0.2 million due primarily to the decrease of net pension liability.

Financial Analysis of the District as a Whole (Continued)

Table A-4 Changes in Net Position from Operating Results - Governmental Activities (in thousands)

	cal Year 2 <u>018</u>		cal Year <u>2017</u>	Percent <u>Change</u>

Pupil transportation	1,478		1,412	4.68%
Interest	691		700	-1.35%
Community service	-		2	-95.45%
School lunch program	564		597	- <u>5.48</u> %
Total expenses	 24,452		23,090	<u>5.90</u> %
Increase in net position	\$ 745	\$	738	<u>0.92</u> %

Changes in Net Position

The District's total fiscal year 2018 revenues totaled \$25.1 million. (See Table A-4). Property taxes (including other tax items) and state and federal sources formula aid accounted for most of the District's revenue. (See Table A-5). The remainder came from fees charged for services, operating grants, use of money and property, and other miscellaneous sources.

The total cost of all programs and services totaled \$24.4 million for fiscal year 2018. These expenses are predominately related to general instruction, which account for 72% of District expenses. (See Table A-6). The District's general support activities accounted for 17% of total costs.

Financial Analysis of the District as a Whole (Continued)

Table A-5 Sources of Revenue for Fiscal Year 2018

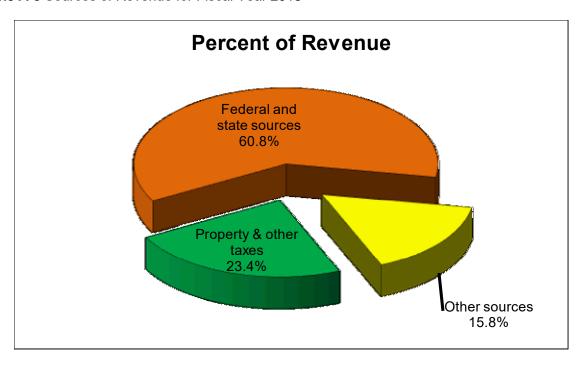

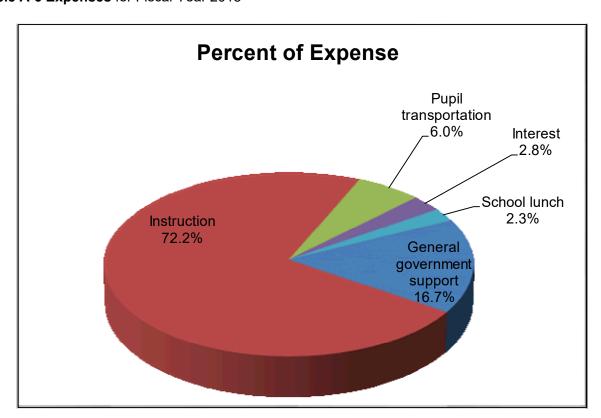

Table A-6 Expenses for Fiscal Year 2018

Financial Analysis of the District's Funds

Variances between years for the governmental fund financial statements are not the same as variances between years for the District-wide financial statements. The District's governmental funds are presented on the current financial resources measurement focus and the modified accrual basis of accounting. Based on this presentation, governmental funds do not include long-term debt, liabilities for the funds' projects and capital assets purchased by the funds. Governmental funds will include the proceeds received from the issuance of debt, the current payments for capital assets, and the current payments for debt.

At June 30, 2018, the District, in its governmental funds, reported combined fund balances of \$5.9 million, an increase of \$0.6 million over the prior year. The District's governmental funds operated at a surplus in 2017-2018.

General Fund Budgetary Highlights

This section presents an analysis of significant variances between original and final budget amounts and between final budget amounts and actual results for the General fund.

Table A-7 Results vs. Budget (in thousands)

	Original <u>Budget</u>	Final <u>Budget</u>	<u>Actual</u>	Encumbrances	Variance Positive/ (Negative)
Revenue:					
Local sources	\$ 8,482	\$ 8,482	\$ 9,675	\$ -	\$ 1,193
State and federal sources	15,520	15,520	14,197	<u> </u>	(1,323)
Total	24,002	24,002	23,872		(130)
Expenditures:					
General support	2,895	3,025	2,673	22	330
Instruction	12,625	12,652	11,803	22	827
Employee benefits	5,625	5,508	5,038	-	470
Transportation	981	992	924	5	63
Debt service	2,364	2,342	2,342	-	-
Other	2	1	-	-	1
Other financing sources (uses)	60	5,508	(1,067)		6,575
Total	24,552	30,028	21,713	49	8,266
Revenue over (under) expense	<u>\$ (550</u>)	<u>\$ (6,026)</u>	\$ 2,159	<u>\$ (49)</u>	\$ 8,136

The General fund is the only fund for which a budget is legally adopted, and includes the Onondaga Nation School budget. For the purposes of the above analysis the budget columns do not include appropriated fund balance.

The following significant variances between budget and actual occurred during fiscal 2018:

- Revenues from State sources was approximately \$1.3 million less than budgeted. There is a corresponding amount that comes to the District from the State for Native American Education.
- Instruction expenditures including special education was approximately \$827 thousand less than budgeted. The District has prepared its budgets in a way to support health and safety as well as the needs of the students. The District prepares for additional staffing based on programs in case there is a need for a long term sub or additional staffing for student needs.
- Employee benefits was approximately \$470 thousand less than budgeted. The District plans budgetarily in the case of additional employee benefit needs for current staff or additional staffing.

Capital Assets

As of June 30, 2018, the District had invested in a broad range of capital assets. The net decrease in capital assets is due to depreciation expense exceeding capital additions for the year ending June 30, 2018

Table A-8 Capital Assets (net of depreciation)

	Fi	scal Year	F	iscal Year	Percent
		<u>2018</u>		<u>2017</u>	<u>Change</u>

FACTORS BEARING ON THE FUTURE OF THE DISTRICT

At the time these financial statements were prepared and audited, the District was not aware of any extraordinary circumstances or factors that would significantly impact the District's financial position in the future.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide citizens, taxpayers, customers, investors and creditors with a general overview of the finances of the District and to demonstrate the District's accountability with the funds it receives. If you have any questions about this report or need additional financial information, please contact: Lafayette Central School District 5955 Route 20 West, LaFayette, New York 13084.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

1. NATURE OF OPERATIONS

Lafayette Central School District (the District) provides free K-12 public education to students living within its geographic borders.

2. SUMMARY OF CERTAIN SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. Those principles are prescribed by the Governmental Accounting Standards Board (GASB), which is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

Certain significant accounting principles and policies utilized by the District are described below:

Reporting Entity

The District is governed by the Laws of New York State. The District is an independent entity governed by an elected Board of Education (BOE). The President of the Board serves as chief fiscal officer and the Superintendent is the chief executive officer. The BOE has authority to make decisions, power to appoint management and accountability for all fiscal matters.

The financial reporting entity consists of the primary government, organizations for which the primary government is financially accountable and other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. The financial reporting entity includes the Onondaga Nation School. The Onondaga Nation School is funded by Native American aid.

The accompanying financial statements present the activities of the District. The District is not a component unit of another reporting entity. The decision to include a potential component unit in the District's reporting entity is based on several criteria including legal standing, fiscal dependency, and financial accountability. A component unit is included in the District's reporting entity if it is both fiscally dependent on the District and there is a potential for the component unit to provide specific financial benefits to or impose specific financial burdens on the District. Based on the application of these criteria there are no component units included in the District's financial statements.

Extraclassroom Activity Funds

The extraclassroom activity funds of the District represent funds of the students of the District. The BOE exercises general oversight of these funds. The extraclassroom activity funds are independent of the District with respect to its financial transactions and the designation of student management. Separate audited financial statements (cash basis) of the extraclassroom activity funds can be found at the District's business office. The District accounts for assets held as an agent for various student organizations in an agency fund.

Joint Venture

The District is a component school district in the Onondaga-Cortland-Madison BOCES (BOCES). BOCES is a voluntary, cooperative association of school districts in a geographic area that shares planning, services, and programs which provide educational and support activities. There is no authority or process by which a school district can terminate its status as a BOCES component.

BOCES are organized under §1950 of the New York State Education Law. A BOCES board is considered a corporate body. Members of a BOCES board are nominated and elected by their component member boards in accordance with provisions of §1950 of the New York State Education Law. All BOCES property is held by the BOCES board as a corporation (§1950(6)). In addition, BOCES boards also are considered municipal corporations to permit them to contract with other municipalities on a cooperative basis under §119-n(a) of the New York State General Municipal Law.

BOCES' budget is comprised of separate budgets for administrative, program, and capital costs. Each component school district's share of administrative and capital cost is determined by resident public school district enrollment, as defined in the New York State Education Law, §1950(4)(b)(7). In addition, component school districts pay tuition or a service fee for programs in which its students participate.

Financial statements for the BOCES are available from the BOCES administrative office.

Basis of Presentation

District-Wide Statements

The District's financial statements consist of district-wide financial statements, including a Statement of Net Position and a Statement of Activities, and fund level financial statements which provide more detailed information.

The statement of net position and the statement of activities present financial information about the District's governmental activities. These statements include the financial activities of the overall government in its entirety, except those that are fiduciary. Eliminations have been made to minimize the double counting of internal transactions. Governmental activities generally are financed through taxes, state aid, intergovernmental revenue, and other exchange and non-exchange transactions. Operating grants include operating-specific and discretionary (either operating or capital) grants, while the capital grants column reflects capital-specific grants.

The statement of activities presents a comparison between direct expenses and program revenue for each function of the District's governmental activities. Direct expenses are those that are specifically associated with and are clearly identifiable to a particular function. Program revenue includes charges paid by the recipients of goods or services offered by the programs and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenue that is not classified as program revenue, including all taxes, is presented as general revenue.

Fund Financial Statements

The fund statements provide information about the District's funds, including fiduciary funds. Separate statements for each fund category (governmental and fiduciary) are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column.

Basis of Presentation (Continued)

Fund Financial Statements (Continued)

The District reports the following major governmental fund:

• General Fund - This is the District's primary operating fund. It accounts for all financial transactions that are not required to be accounted for in another fund.

The District reports the following non-major governmental funds:

- Special Aid Fund This fund accounts for the proceeds of specific revenue sources, such as federal and state grants, that are legally restricted to expenditures for specified purposes and other activities whose funds are restricted as to use. These legal restrictions may be imposed either by governments that provide the funds, or by outside parties.
- School Lunch Fund This fund accounts for the proceeds of specific revenue sources, such as federal and state grants, that are legally restricted to expenditures for school lunch operations. These legal restrictions may be imposed either by governments that provide the funds, or by outside parties.
- Capital Projects Fund This fund is used to account for the financial resources used for acquisition, construction, or major repair of capital facilities.
- Debt Service Fund This fund is used to account for the accumulation of resources and the payment of principal and interest on long-term general obligation debt of the governmental activities.

The District reports the following fiduciary funds:

• Fiduciary Funds - These funds are used to account for fiduciary activities. Fiduciary activities are those in which the District acts as trustee or agent for resources that belong to others. These activities are not included in the District-wide financial statements because their resources do not belong to the District and are not available to be used. There are two classes of fiduciary funds:

Private purpose trust funds - These funds are used to account for trust arrangements in which principal and income are used to fund annual third party awards and scholarships for students. Established criteria govern the use of the funds and members of the District or representatives of the donors may serve on committees to determine who benefits.

Agency funds - These funds are strictly custodial in nature and do not involve the measurement of results of operations. Assets are held by the District solely as an agent for various student groups or extra-classroom activity funds and for payroll or employee withholding.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the financial statements and the reported revenue and expenses during the reporting period. Actual results could differ from those estimates. Estimates and assumptions are made in a variety of areas, including computation of encumbrances, compensated absences, potential contingent liabilities and useful lives of long-lived assets.

Measurement Focus and Basis of Accounting

The District-wide and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenue is recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash transaction takes place. Non-exchange transactions in which the District gives or receives value without directly receiving or giving equal value in exchange include property taxes, grants, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

The governmental fund statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenue is recognized when measurable and available. The District considers all revenue reported in the governmental funds to be available if the revenue is collected within sixty days after the end of the fiscal year.

Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Cash and Cash Equivalents

The District's cash and cash equivalents consist of cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. New York State law governs the District's investment policies. Resources must be deposited in FDIC-insured commercial banks or trust companies located within the state. Permissible investments include obligations of the United States Treasury, United States agencies, repurchase agreements, and obligations of New York State or its localities. Collateral is required for demand and time deposits and certificates of deposit not covered by FDIC insurance. Obligations that may be pledged as collateral are obligations of the United States and its agencies and obligations of the State and its municipalities and Districts.

Restricted Cash

Restricted cash represents cash and cash equivalents where use is limited by legal requirements. These assets include amounts required by statute to be reserved for various purposes.

Accounts Receivable

Accounts receivable are shown gross, with uncollectible amounts recognized under the direct write-off method. Generally accepted accounting principles require the allowance method be used to recognize bad debts; however, the effect of using the direct write-off method is not materially different from the results that would have been obtained under the allowance method.

Property Taxes

Real property taxes are levied annually by the Board of Education no later than September 1, and become a lien on September 1. Taxes are collected during the period September 1 to October 31. Taxes not collected by October 31 are turned over to the County who assumes all responsibility for collection.

Inventory

Inventory of food in the school lunch fund is recorded at cost on a first-in, first-out basis, or in the case of surplus food, at stated value which approximates market. Purchases of inventory items in other funds are recorded as expenditures at the time of purchase, and are considered immaterial in amount.

Interfund Transactions

The operations of the District include transactions between funds. These transactions may be temporary in nature, such as with interfund borrowings. The District typically loans resources between funds for the purpose of providing cash flow. These interfund receivables and payables are expected to be repaid within one year. Permanent transfers of funds include the transfer of expenditures and revenues to provide financing or other services.

In the district-wide statements, the amounts reported on the Statement of Net Position for interfund receivables and payables represent amounts due between different fund types (governmental activities and fiduciary funds). Eliminations have been made for all interfund receivables and payables between the funds, with the exception of those due from or to the fiduciary funds.

The governmental funds report all interfund transactions as originally recorded. Interfund receivables and payables may be netted on the accompanying governmental funds balance sheet when it is the District's practice to settle these amounts at a net balance based upon the right of legal offset.

Capital Assets

Capital assets are reported at actual cost when such data was available. For assets in which there was no data available, estimated historical costs, based on appraisals conducted by independent third-party professionals, were used. Donated assets are reported at estimated fair market value at the time received. Capitalization thresholds (the dollar value above which asset acquisitions are added to the capital asset accounts), depreciation methods, and estimated useful lives of capital assets reported in the District-wide statements are as follows:

	oitalization <u>hreshold</u>	Depreciation <u>Method</u>	on Estimated <u>Useful Life</u>	
Buildings and Improvements	\$ 5,000	SL	25-50 years	
Site Improvements	\$ 5,000	SL	20 years	
Furniture, Equipment and Vehicles	\$ 5,000	SL	5 - 20 years	

Vested Employee Benefits

Compensated absences consist of unpaid accumulated annual sick leave, vacation, and sabbatical time. Sick leave eligibility and accumulation is specified in negotiated labor contracts, and in individual employment contracts.

District employees are granted vacation in varying amounts, based primarily on length of service and service position. Some earned benefits may be forfeited if not taken within varying time periods.

Consistent with generally accepted accounting principles, the liability has been calculated using the vesting/termination method and an accrual for that liability is included in the district-wide financial statements. The compensated absences liability is calculated based on the pay rates in effect at year-end.

Vested Employee Benefits (Continued)

In the fund statements only the amount of matured liabilities is accrued within the General fund based upon expendable and available financial resources. These amounts are recognized as expenditures on a pay-as-you-go basis.

District employees participate in the New York State Employees' Retirement System and the New York State Teachers' Retirement System.

Deferred Outflows and Inflows of Resources

In addition to assets and liabilities, the Balance Sheet and Statement of Net Position will sometimes report a separate section for deferred outflows/inflows of resources. The separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expenses/expenditure) until then. The separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until then.

Other Postemployment Benefits

In addition to providing the pension benefits described, the District provides postemployment health insurance coverage to its retired employees and their survivors in accordance with the provisions of the employment contracts negotiated between the District and its employee groups. Substantially all of these employees may become eligible for these benefits if they reach normal retirement age while working for the District. Health care benefits are provided through plans whose premiums are based on the benefits paid during the year. The District pays a variable percentage of the cost of premiums to an insurance company that provides health care insurance. At the fund level the District recognizes the cost of providing health care insurance by recording its share of insurance premiums as an expenditure or operating transfer to other funds in the general fund in the year paid.

Unearned Revenue

Unearned revenue is reported when potential revenue does not meet both the measurable and available criteria for recognition in the current period. Unearned revenue also arises when resources are received by the District before it has legal claim to them, as when grant monies are received prior to the incidence of qualifying expenditures. In subsequent periods, when both recognition criteria are met, or when the District has legal claim to the resources, the liability for unearned revenue is removed and revenue is recorded.

Statute provides the authority for the District to levy taxes to be used to finance expenditures within the first 120 days of the succeeding fiscal year. Consequently, such amounts are recognized as revenue in the subsequent fiscal year, rather than when measurable and available.

Short-Term Debt

The District may issue Revenue Anticipation Notes (RANs), in anticipation of the receipt of revenues. These notes are recorded as a liability of the fund that will actually receive the proceeds from the issuance of the notes. The RANs represent a liability that will be extinguished by the use of expendable, available resources of the fund.

The District may issue Bond Anticipation Notes (BANs), in anticipation of proceeds from the subsequent sale of bonds. These notes are recorded as current liabilities of the funds that will actually receive the proceeds from the issuance of bonds. State law requires that BANs issued for capital purposes be converted to long-term financing within five years after the original issue date.

Accrued Liabilities and Long-Term Obligations

Payables, accrued liabilities, and long-term obligations are reported in the District-wide financial statements. In the governmental funds, payables and accrued liabilities are paid in a timely manner and in full from current financial resources. Claims and judgments, and compensated absences that will be paid from governmental funds, are reported as a liability in the fund financial statements only to the extent that they are due for payment in the current year.

Long-term obligations represent the District's future obligations or future economic outflows. The liabilities are reported as due in one year or due within more than one year in the Statement of Net Position.

Restricted Resources

When an expense is incurred for purposes for which both restricted and unrestricted net position is available, the District's policy concerning which to apply first varies with the intended use, and with associated legal requirements, many of which are described elsewhere in these notes.

District-Wide Statements - Equity Classifications

In the District-wide statements there are three classes of net position:

Net investment in capital assets - consists of net capital assets (cost less accumulated depreciation) reduced by outstanding balances of related debt obligations from the acquisition, construction or improvements of those assets.

Restricted net position - reports net position when constraints placed on the assets are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws and regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.

Unrestricted net position - reports all other net position that does not meet the definition of the above two classifications and are deemed to be available for general use by the District.

Governmental Fund Financial Statements - Equity Classifications

In the fund basis statements there are five classifications of fund balance:

Nonspendable fund balance - Includes amounts that cannot be spent because they are either not in spendable form or legally or contractually required to be maintained intact. Nonspendable fund balance includes the inventory recorded in the school lunch fund.

Restricted fund balance - Includes amounts with constraints placed on the use of resources either externally imposed by creditors, grantors, contributors or laws or regulations of other governments; or imposed by law through constitutional provisions or enabling legislation. The District has available the following restricted fund balances.

Capital reserve

Capital reserve (Education Law §3651) is used to pay the cost of any object or purpose for which bonds may be issued. The creation of a capital reserve fund requires authorization by a majority of the voters establishing the purpose of the reserve; the ultimate amount, its probable term, and the source of the funds. Expenditures may be made from the reserve only for a specific purpose further authorized by the voters. The form for the required legal notice for the vote on establishing and funding the reserve and the form of the proposition to be placed on the ballot are set forth in §3651 of the Education Law. This reserve is accounted for in the capital projects fund.

Governmental Fund Financial Statements - Equity Classifications (Continued)

Property loss and liability reserve

Property loss reserve and liability reserves (Education Law §1709(8)c) are is used to pay for property loss and liability claims incurred. Separate funds for property loss and liability claims are required, and these reserves may not in total exceed 3% of the annual budget of \$15,000, whichever is greater. These reserves are accounted for in the general fund.

Repair reserve

Repair reserve (GML §6-d) is used to pay the cost of repairs to capital improvements or equipment, that are of a type not recurring annually. The BOE, without voter approval, may establish a repair reserve fund by a majority vote of its members. Voter approval is required to fund this reserve (opinion of the New York State Comptroller 81-401). Expenditures from this reserve may be made only after a public hearing has been held, except in emergency situations. If no hearing is held, the amount expended must be repaid to the reserve fund over the next two subsequent fiscal years. This reserve is accounted for in the general fund.

Liability reserve

Liability reserve (Education Law §1709(8-c)) is used to reserve funds for the payment of potential property loss and liability claims. This reserve may be established by a majority vote of the Board, and is funded by budgetary appropriations and such other reserves and funds that may be legally appropriated. This reserve is accounted for in the general fund.

Debt service reserve

Mandatory reserve for debt service (GML §6-I) is used to establish a reserve for the purpose of retiring the outstanding obligations upon the sale of District property or capital improvement that was financed by obligations which remain outstanding at the time of sale. The funding of the reserve is from the proceeds of the sale of District property or capital improvement. The reserve is accounted for in the general fund.

Retirement contribution reserve

Retirement contribution reserve (GML §6-r) is used for the purpose of financing retirement contributions. The reserve must be accounted for separate and apart from all other funds and a detailed report of operation and condition of the fund must be provided to the board. This reserve is accounted for in the general fund.

Employee benefits accrued liability reserve

Employee benefits accrued liability reserve (GML §6-p) is used for payment of any accrued employee benefit due an employee upon termination of the employee's service. This reserve may be established by a majority vote of the Board and is funded by budgetary appropriations and such other reserves and funds that may be legally appropriated. This reserve is accounted for in the general fund.

Unemployment insurance reserve

The unemployment insurance reserve (GML §6-m) is used to pay the cost of reimbursement to the State Unemployment Insurance Fund for payments made to claimants where the District has elected to use the benefit reimbursement method. The reserve may be established by Board action and is funded by budgetary appropriations and such other funds as may be legally appropriated. Within sixty days after the end of any fiscal year, excess amounts may either be transferred to another reserve or the excess applied to the appropriations of the next succeeding fiscal year's budget. If the District elects to convert to the tax (contribution) basis, excess resources in the fund may be transferred to any other reserve fund. The reserve is accounted for in the general fund.

Governmental Fund Financial Statements - Equity Classifications (Continued)

Committed fund balance - Includes amounts that can be used for the specific purposes pursuant to constraints imposed by formal action of the District's highest level of decision making authority, the BOE.

Assigned fund balance - Includes amounts that are constrained by the District's intent to be used for specific purposes, but are neither restricted nor committed. All encumbrances of the general fund are classified as assigned fund balance.

Unassigned fund balance - Includes all other general fund amounts that do not meet the definition of the above four classifications and are deemed to be available for general use by the District.

New York State Real Property Tax Law §1318 limits the amount of unexpended surplus funds the District can retain to no more than 4% of the District's budget for the general fund for the ensuing fiscal year. Non-spendable and restricted fund balance of the general fund are excluded from the 4% limitation. Amounts appropriated for the subsequent year's budget and encumbrances are also excluded from the 4% limitation.

Order of Fund Balance Spending Policy

The District's policy is to apply expenditures against non-spendable fund balance, restricted fund balance, committed fund balance, assigned fund balance, and unassigned fund balance at the end of the fiscal year. For all funds, non-spendable fund balances are determined first and then restricted fund balances for specific purposes are determined. Any remaining fund balance amounts for funds other than the general fund are classified as assigned fund balance. In the general fund, committed fund balance is determined next and then assigned. The remaining amounts are reported as unassigned. Assignments of fund balance cannot cause a negative unassigned fund balance.

Change in Accounting Principle

The District adopted GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions (OPEB). Statement No. 75 established standards for recognizing and measuring liabilities, deferred outflows of resources, deferred inflows of resources, and expense/expenditures related to certain postemployment benefits. For defined benefit OPEB, this Statement identifies the methods and assumptions that are required to be used to project benefit payments, discount projected benefit payments to their actuarial present value, and attribute that present value to periods of employee service. Accordingly, Other Postemployment Benefits Payable increased \$23,478,404, reflected in balances as of July 1, 2017. Beginning Net Position was decreased from \$15,919,469 to \$(7,558,935) and Other Postemployment Benefits Payable was increased from \$8,080,821 to \$31,559,225 on the Statement of Net Position.

3. EXPLANATION OF CERTAIN DIFFERENCES BETWEEN GOVERNMENTAL FUND STATEMENTS AND DISTRICT-WIDE STATEMENTS

Due to the differences in the measurement focus and basis of accounting used in the governmental fund statements and the District-wide statements, certain financial transactions are treated differently. The basic financial statements contain a full reconciliation of these items. The differences result primarily from the economic focus of the statement of activities compared with the current financial resources focus of the governmental funds.

Total Fund Balances of Governmental Funds vs. Net Position of Governmental ActivitiesTotal fund balances of the District's governmental funds differ from "net position" of governmental activities reported in the statement of net position. This difference results from the additional long-term economic focus of the statement of net position versus the solely current financial resources focus of the governmental fund balance sheets.

Statement of Revenue, Expenditures, and Changes in Fund Balance vs. Statement of Activities

Differences between the governmental funds statement of revenue, expenditures, and changes in fund balance and the statement of activities fall into one of three broad categories.

Long-Term Revenue and Expense Differences

Long-term revenue differences arise because governmental funds report revenue only when it is considered "available," whereas the statement of activities reports revenue when earned. Differences in long-term expenses arise because governmental funds report on a modified accrual basis, whereas the accrual basis of accounting is used on the statement of activities.

Capital Related Differences

Capital related differences include the difference between proceeds from the sale of capital assets reported on governmental fund statements and the gain or loss on the sale of assets as reported on the statement of activities, and the difference between recording an expenditure for the purchase of capital items in the governmental fund statements and depreciation expense on those items as recorded in the statement of activities.

• Long-Term Debt Transaction Differences

Long-term debt transaction differences occur because both interest and principal payments are recorded as expenditures in the governmental fund statements, whereas interest payments are recorded in the statement of activities as incurred, and principal payments are recorded as a reduction of liabilities in the statement of net position.

4. CASH AND CASH EQUIVALENTS

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. While the District does not have a specific policy for custodial credit risk, New York State statutes govern the District's investment policies.

The District's aggregate bank balances (disclosed in the financial statements), included balances covered by depository insurance at year-end and collateralized as follows:

<u>Fund</u>	Bank <u>Balance</u>	Carrying <u>Amount</u>
Cash and cash equivalents, including fiduciary funds	\$ 7,660,833	<u>\$ 6,444,064</u>
Collateralized with securities held by the pledging financial institution's trust department or agent in the District's name	\$ 7,107,645	
Covered by FDIC insurance	750,000	
Total	<u>\$ 7,857,645</u>	

Restricted cash represents cash and cash equivalents where use is limited by legal requirements. These assets represent amounts required by statute to be reserved for various purposes.

Restricted cash consists of the following:

Property loss reserve	\$	350,000
Retirement contributions reserve		727,424
Employee benefit and accrued liability reserve		497,582
Unemployment insurance reserve		178,349
Repair reserve		1,637,088
Liability reserve		501,380
Debt service reserve*		1,133,240
Total restricted cash - governmental funds		5,025,063
Scholarships and extraclassroom - fiduciary funds	_	385,558
Total restricted cash	\$	5,410,621

^{*}Restricted cash and cash equivalents of \$31,711 in the debt service fund represents money held for future debt service that are included in the net amount due to other funds of \$31,711. These amounts are reflected in the general fund's total debt service reserve of \$1,133,240.

5. CAPITAL ASSETS

Capital asset balances and activity for the year ended June 30, 2018 were as follows:

	Beginning <u>Balance</u>	Additions	<u>Deletions</u>	Ending <u>Balance</u>
Governmental activities: Capital assets that are not depreciated:				
Land	\$ 156,400	\$ -	\$ -	\$ 156,400
Construction in process	21,968	426,662	-	448,630
Total nondepreciable cost	178,368	426,662		605,030
Capital assets that are depreciated:				
Site improvements	1,221,856	-	-	1,221,856
Buildings and improvements	40,517,241	-	-	40,517,241
Furniture, equipment and vehicles	3,887,063	402,041	223,151	4,065,953
Total depreciable assets	45,626,160	402,041	223,151	45,805,050
Less accumulated depreciation:				
Site improvements	1,221,856	-	-	1,221,856
Buildings and improvements	11,560,844	536,680	-	12,097,524
Furniture, equipment and vehicles	2,827,423	500,760	204,559	3,123,624
Total accumulated depreciation	15,610,123	1,037,440	204,559	16,443,004
Total depreciable cost, net	30,016,037	(635,399)	18,592	29,362,046
Total capital assets, net	\$30,194,405	\$ (208,737)	\$ 18,592	\$ 29,967,076

Depreciation expense for the year ended June 30, 2018, was allocated to specific functions as follows:

General support	\$	784,870
Instruction		29,454
School lunch		223,116
Pupil transportation		
Total depreciation	<u>\$</u>	1,037,440

6. PARTICIPATION IN BOCES

During the year, the District was billed \$2,449,591 for BOCES administrative and program costs. The District's share of BOCES aid amounted to \$878,507. Financial statements for the BOCES' are available from the BOCES' administrative office at OCM BOCES, 110 Elwood Davis Road, Liverpool, NY 13088.

7. SHORT-TERM DEBT

The District has the following short-term debt outstanding at June 30, 2018:

	Issuance			Balance at			Balance at
	<u>Date</u>	<u>Due</u>	<u>Rate</u>	6/30/2017	<u>lssued</u>	Redeemed	6/30/2018
RAN RAN	6/21/2018 3/29/2018	6/21/2019		-	5,000,000 2,000,000	-	5,000,000 2,000,000
RAN		6/22/2018		4,000,000		4,000,000	
				\$ 4,000,000	\$7,000,000	\$ 4,000,000	\$7,000,000

Interest cost for short-term debt for the year ended June 30, 2018 was \$90,000

The revenue anticipation note was issued for the purpose of cash flow needs in anticipation of the receipt of revenues.

8. LONG-TERM DEBT

Long-term liability balances and activity for the year are summarized as follows:

	Beginning <u>Balance</u> (<u>restated)</u>	<u>Additions</u>	<u>Deletions</u>	Ending <u>Balance</u>	Due Within <u>One Year</u>
Government activities:					
Serial Bonds	\$13,966,000	\$ 247,000	\$ 1,541,000	\$12,672,000	\$1,767,000
Premium on Serial Bonds	1,654,779	-	125,855	1,528,924	-
Net pension liability - ERS	698,785	-	471,879	226,906	-
Net pension liability - TRS	568,959	476,804	1,045,763	-	-
Compensated absences	539,912	-	7,208	{a} 532,704	-
Other postemployment benefits	31,559,225	1,914,952	2,376,271	31,097,906	
Total other liabilities	\$48,987,660	\$ 2,638,756	\$ 5,567,976	\$46,058,440	\$1,767,000

[{]a} Additions and deletions to compensated absences are shown net because it is impractical to determine these amounts separately.

Interest on all debt for the year was composed of:

Interest paid on long-term debt	\$ 710,831
Interest paid on short-term debt	90,000
Less: Amortization of debt premiums	(125,855)
Less: Interest accrued in the prior year	(28,780)
Plus: Interest accrued in the current year	 44,720
Total interest expense	\$ 690,916

8. LONG-TERM DEBT (Continued)

Issue dates, maturities, and interest rates on outstanding debt are as follows:

				6/30/2018
Bond Issue	<u>lssued</u>	<u>Maturity</u>	Interest Rate	<u>Balance</u>
2011 SB-"Series A" Construction	2011	2025	3.00-5.00%	\$ 2,220,000
2014 Serial Bonds	2013	2019	1.50-2.00%	45,000
2015 Serial Bonds	2014	2020	1.80-1.85%	70,000
Refunding of 2005 Serial Bonds	2015	2025	2.00-4.50%	1,625,000
2016 Serial Bonds Buses	2016	2021	2.25-2.50%	190,000
2016 Serial Bonds Buses	2016	2021	1.50-1.875%	185,000
2017 DASNY	2016	2031	2.00-5.00%	8,090,000
2017 Serial Bonds Buses	2017	2022	2.25-2.375%	 247,000
Total bond issue				\$ 12,672,000

The following is a summary of the maturity of long-term indebtedness as of June 30, 2018:

	<u>F</u>	<u>Principal</u>		<u>Interest</u>			<u>Total</u>
2019	\$	1,767,000	9	5	537,773	\$	2,304,773
2020		1,300,000			488,130		1,788,130
2021		1,065,000			446,469		1,511,469
2022		1,045,000			405,825		1,450,825
2023		1,035,000			359,856		1,394,856
2024-2028		4,130,000			1,140,856		5,270,856
2029-2031		2,330,000	_		236,750		2,566,750
Totals	\$ 1	2,672,000	9	5	3,615,659	\$	16,287,659

9. INTERFUND BALANCES AND ACTIVITY

	Interfund <u>Receivable</u>	Interfund <u>Payable</u>	Transfers <u>In</u>	Transfers <u>Out</u>
General	\$ 1,405,544	\$ 235,906	\$ 1,180,127	\$ 113,360
Special Aid	-	450,762	32,979	-
Debt Service	246,842	278,553	86,327	1,180,127
Capital Projects	-	588,957	-	86,327
Private Purpose Trust	1,654	700	-	-
Trust and Agency	96,382	184,110	-	-
School Lunch	355,063	366,497	80,381	
Total	\$ 2,105,485	\$ 2,105,485	\$ 1,379,814	\$ 1,379,814

Interfund receivables and payables, other than between governmental activities and fiduciary funds, are eliminated on the statement of net position. The District typically loans resources between funds for the purpose of mitigating the effects of transient cash flow issues. All interfund payables are expected to be repaid within one year.

10. DONOR RESTRICTED ENDOWMENTS

The District administers endowment funds, which are restricted to use by the donor for the purposes of student scholarships. These funds are accounted for in the Fiduciary Funds in a Private Purpose Trust.

11. PENSION PLANS

New York State Employee Retirement System (NYERS)

The District participates in the New York State and Local Employees' Retirement System (ERS) also referred to as New York State and Local Retirement System (the System). This is a cost-sharing multiple-employer retirement system, providing retirement benefits as well as death and disability benefits. The net position of the System is held in the New York State Common Retirement Fund (the Fund), established to hold all net position and record changes in plan net position allocated to the System. System benefits are established under the provisions of the New York State Retirement and Social Security Law (NYS RSSL). Once an employer elects to participate in the System, the election is irrevocable. The New York State Constitution provides that pension membership is a contractual relationship and plan benefits cannot be diminished or impaired. Benefits can be changed for future members only by enactment of a State statute. The District also participates in the Public Employees' Group Life Insurance Plan (GLIP), which provides death benefits in the form of life insurance. The System is included in the State's financial report as a pension trust fund. That report, including information with regard benefits provided, may be to www.osc.state.ny.us/retire/publications/index.php or obtained by writing to the New York State and Local Retirement System, 110 State Street, Albany, NY 12244.

The System is noncontributory except for employees who joined the System after July 27th, 1976, who contribute 3.0% percent of their salary for the first ten years of membership, and employees who joined on or after January 1, 2010 who generally contribute 3.0% percent of their salary for their entire length of service. Under the authority of the NYSRSSL, the Comptroller annually certifies the actuarially determined rates expressly used in computing the employers' contributions based on salaries paid during the System's fiscal year ending March 31. Contributions for the current year and two preceding years were equal to 100 percent of the contributions required, and were as follows:

	<u>ERS</u>	
2018	\$	308,582
2017	\$	309,500
2016	\$	347,763

<u>Pension Liabilities, Pension Expense, and Deferred Outflows/Inflows of Resources Related to Pensions</u>

At June 30, 2018, the District reported a net pension liability of \$226,906 for its proportionate share of the ERS net pension liability. The net pension liability was measured as of March 31, 2018, and the total pension liability used to calculate the net pension liability was determined by the actuarial valuation as that date. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating members, actuarially determined.

At June 30, 2018, the District's proportion was .0070305% percent, which was an decrease of .0004064% from its proportion at share measured at June 30, 2017.

New York State Employee Retirement System (NYERS) (Continued)

For the year ended June 30, 2018, the District recognized pension expense of \$291,217. At June 30, 2018, the District reported deferred outflows/inflows of resources related to pensions from the following sources:

	Deferred Outflows		Deferred Inflows	
		of		of
		Resources		Resources
Differences between expected and actual experience	\$	80,930	\$	66,877
Changes of assumptions		150,457		-
Net difference between projected and actual earnings				
on pension plan investments		329,562		650,523
Changes in proportion and differences between the District's	3			
contributions and proportionate share of contributions		63,405		23,063
Contributions subsequent to the measurement date		88,332		_
Total	\$	712,686	\$	740,463

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Plan's Year Ended March 31:

2019	\$ 65,474
2020	50,931
2021	(157,873)
2022	 (74,641)
	\$ (116,109)

The District recognized \$88,332 as a deferred outflow of resources related to pensions resulting from contributions made subsequent to the measurement date of March 31, 2018 which will be recognized on a reduction of the net pension liability in the year ended June 30, 2019.

Actuarial Assumptions

The total pension liability at March 31, 2018 was determined by using an actuarial valuation as of April 1, 2017, with update procedures used to roll forward the total pension liability to March 31, 2018.

Pension Liabilities, Pension Expense, and Deferred Outflows/Inflows of Resources Related to Pensions (Continued)

The actuarial valuation used the following actuarial assumptions:

Inflation 2.50%

Salary scale 3.8 % indexed by service Projected COLAs 1.3% compounded annually

Decrements Developed from the Plan's 2015 experience study of the

period April 1, 2010 through March 31, 2015

Mortality improvement Society of Actuaries Scale MP-2014

Investment Rate of Return 7.0% compounded annually, net of investment expenses,

including inflation

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected return, net of investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Best estimates of arithmetic real rates of return for each major asset class included in the target asset allocation as of March 31, 2018 are summarized below:

	Target	Long-Term
	Allocations	expected real
Asset Type	<u>in %</u>	rate of return in %
Domestic Equity	36	4.55
International Equity	14	6.35
Private Equity	10	7.50
Real Estate	10	5.55
Absolute return strategies (1)	2	3.75
Opportunistic Portfolio	3	5.68
Real Asset	3	5.29
Bonds and Mortgages	17	1.31
Cash	1	-0.25
Inflation Indexed Bonds	4	1.25

Discount Rate

The discount rate used to calculate the total pension liability was 7.0%. The projection of cash flows used to determine the discount rate assumes that contributions from plan members will be made at the current contribution rates and that contributions from employers will be made at statutorily required rates, actuarially. Based upon the assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore the long term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Actuarial Assumptions (Continued)

<u>Sensitivity of the Proportionate Share of the Net Pension Liability to the Discount Rate</u> Assumption

The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.0%, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1% lower (6.0%) or 1% higher (8.0%) than the current rate:

	 6 Decrease (6.00%)	 nt Discount .00%)	-	% Increase (8.00%)
Proportionate Share of Net Pension liability (asset)	\$ 1,716,828	\$ 226,906	\$	(1,033,510)

Pension Plan Fiduciary Net Position (000's)

The components of the current-year net pension liability of the employers as of March 31, 2018, were as follows:

Total pension liability	\$ 183,400,590
Plan net position	 (180,173,145)
Net pension liability (asset)	\$ 3,227,445
ERS net position as a percentage of total pension liability	 98.24%

New York State Teachers' Retirement System (NYSTRS)

The District participates in the New York State Teachers' Retirement System (NYSTRS). This is a cost-sharing, multiple employer public employee retirement system. NYSTRS offers a wide range of plans and benefits, which are related to years of service and final average salary, vesting of retirement benefits, death, and disability.

The New York State Teachers' Retirement Board administers NYSTRS. NYSTRS provides benefits to plan members and beneficiaries as authorized by the Education Law and the Retirement and Social Security Law of the State of New York. NYSTRS issues a publicly available financial report that contains financial statements and required supplementary information for the system. The report may be obtained by writing to NYSTRS, 10 Corporate Woods Drive, Albany, New York 12211-2395.

Contributions

NYSTRS is noncontributory for the employees who joined prior to July 27, 1976. For employees who joined the NYSTRS after July 27, 1976, and prior to January 1, 2010, employees contribute 3% of their salary, except that employees in the System more than ten years are no longer required to contribute. For employees who joined after January 1, 2010 and prior to April 1, 2012, contributions of 3.5% are paid throughout their active membership.

For employees who joined after April 1, 2012, required contributions of 3.5% of their salary are paid until April 1, 2013 and they then contribute 3% to 6% of their salary throughout their active membership. Pursuant to Article 11 of the Education Law, the New York State Teachers' Retirement Board establishes rates annually for NYSTRS.

New York State Teachers' Retirement System (NYSTRS)

Contributions (Continued)

The District is required to contribute at an actuarially determined rate. The District contributions made to NYSTRS were equal to 100% of the contributions required for each year. The required contributions for the current year and two preceding years were:

2018	\$ 986,491
2017	\$ 1,072,975
2016	\$ 1,086,957

At June 30, 2018, the District reported net pension asset of \$417,151 for its proportionate share of the NYSTRS net pension asset. The net pension asset was measured as of June 30, 2017, and the total pension asset used to calculate the net pension asset was determined by the actuarial valuation as of that date. The District's proportion of the net pension asset was based on a projection of the Districts' long-term share of contributions to the pension plan relative to the projected contributions of all participating members, actuarially determined.

At June 30, 2018 the District's proportionate share was 0.054881%, which was an increase of from the .0018% proportionate share measured at June 30, 2017.

For the year ended June 30, 2018, the District recognized pension expense (income) of \$915,970. At June 30, 2018 the District reported deferred outflows/inflows of resources related to pensions from the following sources:

	De	ferred Outflows of	De	ferred Inflows of
		Resources	-	Resources
Differences between expected and actual experience	\$	343,213	\$	162,642
Changes of assumptions		4,244,594		-
Net difference between projected and actual earnings				
on pension plan investments		_		982,512
Changes in proportion and differences between the District's				
contributions and proportionate share of contributions		80,535		112,280
Contributions subsequent to the measurement date		986,357		
Total	\$	5,654,699	\$	1,257,434

The District recognized \$986,357 as a deferred outflow of resources related to pensions resulting from the District's contributions subsequent to the measurement date which will be recognized as a reduction of the net pension liability in the year ended June 30, 2019.

New York State Teachers' Retirement System (NYSTRS)

Other amounts reported as deferred outflows/inflows of resources related to pensions will be recognized in pension expense (income) as follows:

Plan's Year Ended June 30:

2019	\$ 93,529
2020	1,119,985
2021	800,625
2022	196,496
2023	798,287
Thereafter	 401,986
	\$ 3,410,908

Actuarial Assumptions

The total pension liability at the June 30, 2017 measurement date was determined by an actuarial valuation as of June 30, 2016, with update procedures used to roll forward the total pension liability to June 30, 2017. These actuarial valuations used the following actuarial assumptions:

Inflation 2.50%

Projected Salary Increases Rates of increase differ based on service.

They have been calculated based upon recent NYSTRS

member experience.

Service	Rate
5	4.72%
15	3.46%
25	2.37%
35	1.90%

Projected COLAs 1.5% compounded annually

Investment Rate of Return 7.25% compounded annually, net of pension plan investment

expense, including inflation.

Annuitant morality rates are based on plan member experience, with adjustments for mortality improvements based on society of Actuaries Scale MP2014, applied on a generational basis.

The actuarial assumptions used in the June 30, 2017 valuations were based on the results of an actuarial experience study for the period July 1, 2009 to June 30, 2014.

The long-term expected rate of return on pension plan investments was determined in accordance with Actuarial Standard of Practice (ASOP) No. 27, Selection of Economic Assumptions for Measuring Pension Obligations. ASOP No. 27 provides guidance on the selection of an appropriate assumed investment rate of return. Consideration was given to expect future real rates of return (expected returns, net of pension plan investment expense and inflation) for each major asset class as well as historical investment data and plan performance.

New York State Teachers' Retirement System (NYSTRS) (Continued)

Actuarial Assumptions (Continued)

Best estimates of arithmetic real rates of return for each major asset class included in the Systems target asset allocation as of the measurement date of June 30, 2017 (see the discussion of the pension plan's investment policy) are summarized in the following table:

	Target	Long-Term
	Allocations	expected real
Asset Type	<u>in %</u>	rate of return in %
Domestic Equity	35	5.9
International Equity	18	7.4
Real Estate	11	4.3
Private Equity	8	9.0
Domestic Fixed Income Securities	16	1.6
Global Fixed Income Securities	2	1.3
High-yield Fixed Income Securities	1	3.9
Mortgages	8	2.8
Short-term	1	0.6

Discount Rate

The discount rate used to measure the total pension liability was 7.25%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from school districts will be made at statutorily required rates, actuarially determined. Based on those assumptions, the NYSTRS' fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

<u>Sensitivity of the Proportionate Share of the Net Pension Liability to the Discount Rate Assumption</u>

The following presents the net pension liability (asset) of the school districts calculated using the discount rate of 7.25%, as well as what the District's net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25%) or 1-percentage-point higher (8.25%) than the current rate:

	1% Decrease <u>(6.25%)</u>		Current Discount (7.25%)		1% Increase <u>(8.25%)</u>	
Proportionate Share of Net Pension liability (asset)	\$	7,186,278	\$	(417,151)	\$	(6,784,646)

\$ (760,099,284)

\$ 100.66%

12. OTHER POSTEMPLOYMENT BENEFITS OBLIGATION

Plan Description

The District provides certain other postemployment benefits (predominately health insurance and life insurance) for retired employees of the District in accordance with the provisions of various employment contracts. The District administers the Other Postemployment Benefits Plan (OPEB Plan) as a single-employer defined benefit Other Postemployment Benefit Plan (OPEB). The Plan provides for continuation of medical insurance benefit for certain retirees and their spouses and can be amended by action of the District subject to applicable collective bargaining and employment agreements. Employees are eligible for retirement when they reach the age of 55 years and have 10 years of service with the District. The Plan does not issue a stand-alone financial report since there are no assets legally segregated for the sole purpose of paying benefits under the Plan.

Funding Policy

The obligations of the Plan members, employers, and other entities are established by action of the District pursuant to applicable collective bargaining and employment agreements. The required contribution rates of the employer and the members vary depending on the applicable agreement, as stated above. The District currently contributes enough money to the Plan to satisfy current obligations on a pay-as-you go basis. The costs of administering the Plan are paid by the District. As of the date of these financial statements, New York State did not yet have legislation that would enable government entities to establish a qualifying trust for the purpose of funding Other Postemployment Benefits. As such there are no assets accumulated in a trust that meets all of the criteria in GASB Statement No. 75, paragraph 4, to fund this obligation and benefits are paid on a pay as you go basis.

Employees Covered by Benefit Terms

At July 1, 2016, the following employees were covered by the benefit terms:

Actives	190
Inactive employees entitled to but not yet receiving benefits	-
Inactive employees or beneficiaries currently receiving benefits	<u>104</u>
Total participants	294

Total OPEB Liability

The District's total OPEB liability of \$31,097,906 was measured as of June 30, 2018, and was determined by an actuarial valuation as of July 1, 2016.

12. OTHER POSTEMPLOYMENT BENEFITS OBLIGATION (Continued)

Changes in the Total OPEB Liability

Balance at June 30, 2017, as restated	<u>\$ 31,559,225</u>
Changes for the Year-	
Service cost	799,421
Interest	1,115,531
Changes of benefit terms	-
Changes of assumptions or other inputs	(1,577,961)
Differences between expected and actual experience	-
Benefit payments	(798,310)
Net changes	(461,319)
Balance at June 30, 2018	<u>\$ 31,097,906</u>

Changes of assumptions or other inputs reflect a change in the discount rate from 3.58% in 2017 to 3.87% in 2018.

Actuarial Assumptions and Other Inputs

Mortality rates

The total OPEB liability in the July 1, 2017 - June 30, 2018 measurement period was determined using the following actuarial assumptions:

Discount rate	3.58% as of June 30, 2017; 3.87% as of June 30, 2018. Discount rate was based on the Bond Buyer General Obligation 20-year Municipal Bond Index.
Real wage growth	1.00%
Wage inflation	3.20%
Salary increases, including wage inflation	10.47% - 3.20%
Healthcare cost trends:	
Pre-Medicare	5.50% for 2018, decreasing to an ultimate rate of 3.84% by 2078.
Medicare	5.50% for 2018, decreasing to an ultimate rate of 3.84% by 2078.
Mortality rates	Mortality rates were based on April 1, 2010 - March 31, 2015 NYSLRS experience with adjustments for mortality

The actuarial assumptions used in the June 30, 2017 valuation were based on the results of an actuarial experience study for the period April 1, 2010 - March 31, 2015.

improvements based on the Society of Actuaries' Scale MP-

2014.

12. OTHER POSTEMPLOYMENT BENEFITS OBLIGATION (Continued)

Sensitivity of the Total OPEB Liability to Changes in the Discount Rate

The following presents the total OPEB liability of the District, as well as what the District's total OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower (2.87%) or 1 percentage point higher (4.87%) than the current discount rate:

	Discount Rate					
-	1%	Current	1%			
	Decrease (2.87%)	Discount (3.87%)	Increase (4.87%)			
Total OPEB Liability	\$38,188,291	\$31,097,906	\$26,953,207			

Sensitivity of the Total OPEB Liability to Changes in the Healthcare Cost Trend Rates
The following presents the total OPEB liability of the District, as well as what the District's
total OPEB liability would be if it were calculated using healthcare cost trend rates that are
1 percentage point lower or 1 percentage point higher than the current healthcare cost trend
rates as defined in the Actuarial Assumptions and Other Inputs section of this footnote:

	Healthcare Cost Trend Rate					
•	1% <u>Decrease</u>	Current Cost Trend	1% <u>Increase</u>			
Total OPEB Liability	\$26,574,496	\$31,097,906	\$38,787,916			

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended June 30, 2018, the District recognized OPEB expense of \$1,736,049. At June 30, 2018, the District reported deferred inflows of resources related to OPEB from the following sources:

	Deferred	Deferred
	Outflows of	Inflows of
	Resources	Resources
Changes of assumptions or		
other inputs	\$	\$ (1,399,058)
Total	\$ <u>-</u>	\$ (1,399,058)

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Fiscal Year Ending June	<u> </u>	<u> Imount</u>
2019	\$	(178,903)
2020		(178,903)
2021		(178,903)
2022		(178,903)
2023		(178,903)
Thereafter		<u>(504,543)</u>
	<u>\$ (1</u>	,399,058)

13. RISK MANAGEMENT

General

The District is exposed to various risks of loss related to torts, theft, damage, injuries, errors and omissions, natural disasters, and other risks. These risks are covered by commercial insurance purchased from independent third parties. Settled claims from these risks have not exceeded commercial insurance coverage for the past three years.

Health Insurance

The District participates in the Onondaga-Cortland-Madison Health Consortium consisting of 24 other governmental entities for their health insurance coverage, as well as, in the Onondaga-Cortland-Madison Workers' Compensation Consortium consisting of Onondaga-Cortland-Madison BOCES and various other school districts for its workers' compensation insurance coverage. The School District participates in a non-risk retained public entity risk pool for its employee health insurance coverage. A member of the Health Consortium may withdraw from the plan by submitting a notice of withdrawal by May 1 preceding the school year of withdrawal. Upon withdrawal, the Board will determine amounts owed by the member or amounts that may be due to the withdrawing member. If the Plan's assets were to be exhausted, members would be responsible for the Plan's liabilities. Premiums paid to the health consortium totaled \$3,418,682 for the year ended June 30, 2018.

Worker's Compensation

The School District participates in a Workers' Compensation Consortium for its employees. Benefits are provided through self-funding by the individual participants through the purchase of insurance and through the purchase of "stop-loss" coverage. A member may withdraw from the Plan by submitting a notice of withdrawal by May 1 preceding the school year of withdrawal. Upon withdrawal, the Board will determine amounts owed by the member or amounts that may be due to the withdrawing member. The District funds its portion of the program through the General Fund and premiums due to the Workers' Compensation Consortium totaled \$133,779 for the year ended June 30, 2018.

Unemployment

District employees are entitled to coverage under the New York State Unemployment Insurance Law. The District has elected to discharge its liability to the New York State Unemployment Insurance Fund (the Fund) by the benefit reimbursement method, a dollar-for-dollar reimbursement to the fund for benefits paid from the fund to former employees. The District has established an unemployment reserve to pay these claims. There were no claim and judgment expenditures of this program for the 2017-2018 fiscal year. The balance of the reserve at June 30, 2018 is \$178,349 and is recorded in the General fund as an Unemployment Insurance Reserve. In addition, as of June 30, 2018, no loss contingencies existed or were considered probable or estimable for incurred but not reported claims payable.

14. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Budgets

The District administration prepares a proposed budget for approval by the Board of Education for the General Fund, which is then approved by the voters of the District.

Appropriations are adopted at the program line item level.

Appropriations established by the adoption of the budget constitute a limitation on expenditures (and encumbrances) that may be incurred. Appropriations lapse at the end of the fiscal year unless expended or encumbered. Encumbrances will lapse if not expended in the subsequent year. Appropriations authorized for the current year are increased by the planned use of specific reserves, and budget amendments approved by the BOE as a result of selected new revenue sources not included in the original budget (when permitted by law). These supplemental appropriations may occur subject to legal restrictions, if the BOE approves them because of a need that exists which was not determined at the time the budget was adopted.

Budgets are adopted annually on a basis consistent with generally accepted accounting principles. Appropriations authorized for the year are increased by the amount of encumbrances carried forward from the prior year.

Budgets are established and used for individual capital project funds expenditures as approved by a special referendum of the District's voters. The maximum project amount authorized is based primarily upon the cost of the project, plus any requirements for external borrowings, not annual appropriations. These budgets do not lapse and are carried over to subsequent fiscal years until the completion of the projects. Portions of fund balances are restricted or assigned and not available for current expenses or expenditures, as reported in the governmental funds balance sheet.

Fund Balance

NYS Real Property Tax Law 1318 limits the amounts of unexpended surplus funds a school district can retain to no more than 4% of the School District's budget for the General Fund for the ensuing fiscal year. Nonspendable and restricted fund balance of the General Fund are excluded from the 4% limitation. Amounts appropriated for the subsequent year and encumbrances are also excluded from the 4% limitation.

Encumbrances

Encumbrance accounting is used for budgetary control and monitoring purposes and is reported as a part of the governmental funds. Under this method, purchase orders, contracts and other commitments for the expenditure of monies are recorded to reserve applicable appropriations. Outstanding encumbrances as of year-end are presented as assigned fund balance and do not represent expenditures or liabilities. These commitments will be honored in the subsequent period. Related expenditures are recognized at that time, as the liability is incurred or the commitment is paid.

Fund Balance Deficit

The deficit in the capital projects fund was \$448,629 at June 30, 2018. This deficit results from ongoing capital projects that have not been financed yet. It is expected that this deficit will decrease to zero when the District obtains long-term financing.

15. CONTINGENCIES AND COMMITMENTS

Other Contingencies

The District has received grants which are subject to audit by agencies of the state and federal governments. Such audits may result in disallowances and a request for a return of funds. Based on prior audits, the District's administration believes disallowances, if any, will be immaterial.

16. UPCOMING ACCOUNTING PRONOUNCEMENTS

Implemented in the Current Year

The GASB issued Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions. Statement No. 75 replaces the requirements of Statements No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions, as amended, and No. 57, OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans, for OPEB. Statement No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans, establishes new accounting and financial reporting requirements for OPEB plans. The District adopted the provisions of these Statements for the current year ended June 30, 2018. See note 2 for the effect of implementation.

In March 2016, the GASB issued Statement No. 81, *Irrevocable Split-Interest Agreements*. The objective of this Statement is to improve accounting and financial reporting for irrevocable split-interest agreements by providing recognition and measurement guidance for situations in which a government is a beneficiary of the agreement. The District adopted the provisions of this Statement for the current year ended June 30, 2018.

In March 2016, the GASB issued Statement No. 82, *Pension Issues an amendment of GASB Statements No. 67, No. 68, and No. 73*. The objective of this Statement is to require the presentation of covered payroll, defined as the payroll on which contributions to a pension plan are based, and ratios that use that measure. The District adopted the provisions of this Statement for the current year ended June 30, 2018.

In March 2017, the GASB issued Statement No. 85, *Omnibus 2017*. This Statement addresses practice issues that have been identified during the implementation and application of certain GASB Statements. The Statement addresses a variety of topics including issued related to blending component units, goodwill, fair value measurement and application, and postemployment benefits. The District adopted the provisions of this Statement for the current year ended June 30, 2018.

In May 2017, the GASB issued Statement No. 86, *Certain Debt Extinguishment Issues*. The objective of this Statement is to improve consistency in accounting and financial reporting for insubstance defeasance of debt by providing guidance for transactions in which cash and other monetary assets acquired with only existing resources-resources other than the proceeds of refunding debt- are placed in an irrevocable trust for the sole purpose of extinguishing debt. The District adopted the provisions of this Statement for the current year ended June 30, 2018.

Not Yet Implemented

In November 2016, the GASB issued Statement No. 83, *Certain Asset Retirement Obligations*. This Statement addresses accounting and financial reporting for certain asset retirement obligations (AROs). An ARO is a legally enforceable liability associated with the retirement of a tangible capital asset. A government that has legal obligations to perform future retirement activities related to its tangible capital assets should recognize a liability based on the guidance in this Statement. The Statement establishes criteria for determining the timing and pattern of recognition of a liability and corresponding deferred outflow of resources for asset retirement obligations. The requirements of this Statement are effective for reporting periods beginning after June 15, 2018. Earlier application is encouraged.

16. NEW AND UPCOMING PRONOUNCEMENTS (Continued)

Not Yet Implemented (Continued)

In January 2017, the GASB issued Statement No. 84, *Fiduciary Activities*. The Statement establishes criteria for identifying fiduciary activities of all state and local governments. The requirements of this Statement are effective for reporting periods beginning after December 15, 2018. Earlier application is encouraged.

In June 2017, GASB issued Statement No. 87, *Leases*. The Statement requires recognition of certain lease assets and liabilities for leases previously classified as operating leases. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use asset. The requirements of this Statement are effective for reporting periods beginning after December 15, 2019. Earlier application is encouraged.

In April 2018, the GASB issued Statement No. 88, Certain Disclosures Related to Debt, Including Direct Borrowings and Direct Placements. This Statement requires that additional essential information related to debt be disclosed in notes to the financial statements, including unused lines of credit, assets pledged as collateral for the debt and terms specified in debt agreements related to significant events of default with finance-related consequences, significant termination events and significant subjective acceleration clauses. The requirements of this Statement are effective for reporting periods beginning after June 15, 2018. Earlier application is encouraged.

In June 2018, the GASB issued Statement No. 89 Accounting for Interest Costs Incurred before the End of a Construction Period. This Statement establishes accounting requirements for interest incurred before the end of construction period. The Statement requires that interest costs incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statements prepared using the economic resources measurement focus. As a result, interest costs incurred before the end of a construction period will not be included in the cost of a capital asset reported in a business-type activity or enterprise fund. The requirements of this Statement are effective for reporting periods beginning after December 15, 2019. Earlier application is encouraged.

The District is in the process of assessing the impact of these statements on its future financial statements.

REQUIRED SUPPLEMENTARY INFORMATION SCHEDULE OF REVENUE, EXPENDITURES, AND CHANGES IN FUND BALANCE - BUDGET AND ACTUAL - GENERAL FUND (UNAUDITED) FOR THE YEAR ENDED JUNE 30, 2018

Notes to Required Supplementary Information - Schedule of Revenue, Expenditure, and Changes in Fund Balance - Budget and Actual - General Fund

The School District administration prepares a proposed budget for approval by the Board of Education for the General Fund, the only fund with a legally adopted budget. The Budget is adopted annually on a basis consistent with GAAP. Appropriations authorized for the year are increased by the amount of encumbrances carried forward from the prior year.

REQUIRED SUPPLEMENTARY INFORMATION SCHEDULE OF CHANGES IN TOTAL OPEB LIABILITY AND RELATED RATIOS (UNAUDITED) FOR THE YEAR ENDED JUNE 30, 2018

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

September 26, 2018

To the Board of Education of the Lafayette Central School District

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the LaFayette Central School District (District), as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated September 26, 2018.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

(Continued)

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
