

SUBJECT: FIXED ASSET INVENTORIES, ACCOUNTING, AND TRACKING

The Superintendent or designee will maintain a continuous and accurate inventory of fixed assets owned by the District in accordance with applicable rules, standards, procedures, and best practices. Fixed assets are, generally, long-term, tangible resources intended to be continuously held or used, and may include land, buildings, improvements, machinery, and equipment.

All fixed assets purchased and received by the District will be checked, logged, and stored through an established procedure.

The School Business Official will account for assets on an annual basis according to applicable rules, standards, procedures, and best practices. These accounts will serve to:

- a) Maintain an inventory of assets;
- b) Establish accountability;
- c) Determine replacement costs; and
- d) Determine and provide appropriate insurance coverage.

Fixed assets with a minimum value established by the Board that have a useful life of one (1) year or more and physical characteristics not appreciably affected by use or consumption shall be inventoried and recorded on an annual basis. Fixed assets shall include land, buildings, equipment and materials.

<u>Fixed Assets</u>	<u>Minimum Values Estimated</u>	<u>Useful Life</u>
Land	\$1	-
Building	\$50,000	50 years
Building Improvement	\$25,000	25 years
Vehicles	\$10,000	10 years
Equipment (per item)	\$ 5,000	5 years

Standard methods and averaging conventions will be used in assessing, capitalizing, and depreciating fixed assets.

SUBJECT: FIXED ASSET INVENTORIES, ACCOUNTING, AND TRACKING (cont'd)

Fixed assets will be recorded at initial cost or, if not available, at estimated initial cost; gifts of fixed assets will be recorded at estimated fair value at the time of the gift. A property record will be maintained for each fixed asset and will contain, where possible, the following information:

- a) Date of acquisition;
- b) Description;
- c) Serial or other identification number;
- d) Any funding source and percentage contributed by the source;
- e) Vendor;
- f) Cost or value;
- g) Location and use;
- h) Asset type;
- i) Condition and estimated useful life;
- j) Replacement cost;
- k) Current value;
- l) Salvage value;
- m) Sale price and date and method of disposition; and
- n) Responsible official.

All fixed assets will be labeled. Any discrepancies between an inventory and the District's property records should be traced, explained, and documented.

Management of Assets Acquired Under a Federal Government Grant or Subgrant

Inventories will be maintained for assets acquired with funds obtained through federal grant programs. A separate inventory will be maintained for each program. Each inventory will record assets in the same manner as the District's fixed asset inventory. Assets will be labeled to specify the source of funds used to purchase the item. All Title I assets will include "Title I" on the label. These inventories will track assets for at least five (5) years from the date of receipt.

SUBJECT: FIXED ASSET INVENTORIES, ACCOUNTING, AND TRACKING (cont'd)

When original or replacement assets acquired under a federal grant or subgrant are no longer needed for the original project or for other activities currently or previously supported by a federal agency, the District will dispose of the assets as follows:

- a. Assets with a current per-unit fair market value of less than five thousand dollars (\$5,000) may be retained, sold, or otherwise disposed of with no further obligation to the awarding agency.
- b. Assets with a current per-unit fair market value of greater than five thousand dollars (\$5,000) may be retained or sold and the awarding agency will have a right to an amount calculated by multiplying the current market value or proceeds from sale by the awarding agency's share of the assets.
- c. No federal approval is necessary to dispose of an asset costing under five thousand dollars (\$5,000) but approval from the New York State Education Department (SED) is necessary. Once SED has determined that it has no other need for the use of the asset, the District may proceed with selling it.

The District will comply with the U.S. Department of Education regulations governing the use, management, and disposition of all equipment acquired through a federal government grant.

Equipment Purchased with Extraclassroom Funds

Title to all equipment acquired with extraclassroom activity funds will reside with the District and be carried as an insurable asset on its list of insurable values. This equipment will be tagged as District property but is available for exclusive use by the extraclassroom activity club acquiring it.
