SUBJECT: RECORDS MANAGEMENT

A Records Management Officer will be designated by the Superintendent, subject to the approval of the Board. Such Records Management Officer will develop and coordinate an orderly and efficient records management program. This program includes the legal disposition or destruction of obsolete records and the storage and management of inactive records. The Records Management Officer will further be given the authority and responsibility to work with other local officials at all levels in the development and maintenance of the records management program.

In addition, a Records Advisory Board may be created to assist in establishing and supporting the records management program. The District's legal counsel, the fiscal officer, and the Superintendent or designee may comprise the Advisory Board.

Retention and Disposition of Records

The Superintendent will retain records for such a period and dispose of them in the manner described in Records Retention and Disposition Schedule ED-1.

Special Approvals for Disposition of Records

Records not listed on a records retention and disposition schedule will not be disposed of without the approval of the Commissioner of Education. Similarly, records that have been damaged by natural or manmade disasters, such that the information contained in those records is substantially destroyed, or the records constitute a human health or safety risk also require the Commissioner's approval before disposition.

Replacing Original Records with Microforms or Electronic Images

Digital images of public records may be stored on electronic media, and such electronic records may replace paper originals or micrographic copies of these records. To ensure accessibility and intelligibility for the life of these records, the District will follow the procedures prescribed by the Commissioner of Education.

Retention and Preservation of Electronic Records

The District will ensure that records retention requirements are incorporated into any plan and process for design, redesign, or substantial enhancement of an information system that stores electronic records. The District will also ensure that electronic records are not rendered unusable because of changing technology before their retention and preservation requirements are met.
